Information and overview

This cheer camp has a short routine that the cheerleaders will learn in the 5 weeks with us. The summer routine would include stunting, jumps, tumbling, and dance. This camp differs from the stunting and tumbling clinic, as it is a structured class, and we ask to have everyone at each practice if possible!

If you attend the stunt and tumbling clinic this is a great next step to learn more about cheerleading. This camp will also help us prepare for the competitive cheer season starting at the beginning of September!
